

Astrolok AI Knowledgebase — Module 05

Topic: Dasha System & Predictive Framework

■ Dasha System Overview

- Dasha = time periods ruled by specific planets - The most widely used is Vimshottari Dasha (120 years total) - Based on Moon's Nakshatra at birth - Sequence: Ketu → Venus → Sun → Moon → Mars → Rahu → Jupiter → Saturn → Mercury

■ Dasha Duration & Meaning

Ketu – 7 yrs | Venus – 20 yrs | Sun – 6 yrs | Moon – 10 yrs | Mars – 7 yrs | Rahu – 18 yrs | Jupiter – 16 yrs | Saturn – 19 yrs | Mercury – 17 yrs - The strength and house of the Dasha Lord decides the result - Timing is key — even a strong planet may not give good results in wrong timing

■ Dasha + Bhava + Planet Logic

- IF Dasha Lord is in Lagna → life focus shifts to self and identity - IF Dasha Lord is in 7th → marriage, partnerships, or legal matters dominate - IF Dasha Lord is exalted → gives full positive results unless combust/afflicted - IF Dasha Lord is in Dusthana → challenges, inner transformation, or losses

■ Antar Dasha & Predictive Flow

- Mahadasha: main planet ruling a long time phase - Antar Dasha: sub-period, acts like a filter - Example: Jupiter Mahadasha + Moon Antar Dasha → focus on knowledge + emotions - Prediction = Mahadasha planet's intent x Antar Dasha planet's method

■ Dasha Triggers & Cautions

- IF Rahu Dasha + Moon in 6/8/12 → emotional crisis or illusion - IF Saturn Mahadasha after age 36 → stabilizing results likely - IF Mars Dasha during Mars Return → aggression, movement, health risks - IF Venus Dasha in retrograde → rethinking love, beauty, pleasure

■ Dasha Results Based on Moon Position

- IF Moon is 6th from Mahadasha Lord → conflict - IF Moon is 9th → support, dharma, learning - IF Moon is 12th → loss, surrender, spiritual growth

■ AI Interpretation Logic for Dashes

- Use Mahadasha as the main theme of the period - Antar Dasha shows daily experience and event flavor - Strong planet + good house = beneficial results - Weak or afflicted planet = karmic lessons or delays - Always combine Dasha with Transit and Bhava position
